QPL 83296

To maintain the listing of the products on the applicable QPLs, you are required to compile a summary of quality conformance data every 12 months. The standard reporting period is from July 1 through June 30. Your first reporting period for this qualification is from the date of this letter through June 30, 2005. A report is required for each of your products qualified to the subject military specification. The original data must be retained by your company and is to be made available to authorized government representatives upon request. Please coordinate your summary with your government Quality Assurance Representative (QAR) and submit it directly to us in time to arrive by August 1, 2005.

Because we are held responsible for the accuracy and currency of this QPL, please let us know if your company discontinues production of these products. **No changes are to be made in the design and construction of the products qualified without the approval of Defense Supply Center, Columbus, Passive Devices Team (DSCC-VQP).** All Quality Conformance Inspection test failures must also be immediately brought to the attention of DSCC-VQP.

We appreciate your cooperation during this qualification process and thank you for your interest in this program. Please refer any questions to Gene Ott, DSCC-VQP, 614-692-0665, or Mark Parshall, DSCC-VQP, 614-692-0666.

Sincerely,
